

## In Defense

Ignite

Education without action does nothing  
Bulldozers broken down  
Destruction takes the day off  
Tank is filled with dirt  
Land locked and monkeywrenched

I've damaged  
I've damaged  
No compromise in defense  
I've damaged

Another money day  
Clearcut jobs they pay well  
Ecosystems gone  
Developers go build in hell

In defense  
I've damaged  
To preserve

The land is seen as commodity  
Most revered end is money  
Esthetics pass for just scenery  
Most damage done in this century

We break the branches of the diversity tree  
To get its fruit  
But next year your children's yield  
won't be half as good
