

# My Judgement Day

Ignite

Success

I'm able to live my life in my way  
Luck never gives, it lends  
If you're willing to pay  
I'm broken, but I'll mend  
All I have is today  
Yes, I'm broken, but I'll mend  
Screaming, God please help save me

Tired of running out

I'm praying so much more  
I'm thinking about going down  
Down this broken, empty road

Progress

Has taken its toll  
But I've changed my ways  
I've paid all my amends  
Before it was too late  
I'm broken, but I'll mend  
All I have is today  
Screaming God please this time  
Don't forget about me

Tired of running out

I'm praying so much more  
I'm thinking about going down  
Down this lonely road  
I'm living from hand to mouth  
Just like the times before  
I'm tired of running around  
Down this broken, empty road

Success, I'm blessed

For all I have today  
Regrets, obsessed  
This time I will obtain  
What I've been waiting for  
This is my judgement day

Tired of running out

I'm praying so much more  
I'm thinking about going down  
Down this lonely road  
I'm living from hand to mouth  
Just like the times before  
I'm tired of running around  
Down this broken, empty road
