

## Should Have Known

Ignite

what happened here?  
where did the bottom go?  
when did you rush to crush the envelope?  
suppose i should have known  
all along

the bullet - that came from the gun  
pierced right through the target  
hit more than one  
(should have known)

desperation - nothin look the same  
checking for a heartbeat  
chewing on the pain  
suppose i should have known  
right from the start

the bullet - that came from the gun  
pierced right through the target  
hit more than one  
(should have known)

what a waste of life  
and look what you've done to everyone

after - all's been said and done  
there's nothing much left to look at]  
except a coffin  
suppose i should have known  
i was wrong

the bullet - that came from the gun  
pierced right through the target  
hit more than one  
(should have known)
