

# Taken Away

Ignite

A thousand passersby just walk on  
His luxuries of life have been taken away  
I wish someone would stop me  
Every time that I complain

Be grateful in every way  
Taken Away  
Don't you forget  
He would give anything  
Taken Away  
For a working body

Don't throw your blessings away

I've been given love, given family  
A warm clean bed for my head to lay  
So many people aren't so lucky  
Don't forget to give thanks and praise

Be grateful in every way  
Taken Away  
He would give anything  
For a working body  
Taken Away  
A split second later

Don't throw your blessings away

Truly grateful for each and every day  
I get on my knees to give thanks and praise  
Go

Budapest, Hungary 1991  
I met a boy names Janos  
Confined to a wheelchair with multiple sclerosis  
His own mobility based  
Solely on the movements of his chin  
But he had so much to teach me  
When I showed him some friendship  
When I stopped to talk

He said it really hurts  
When people look right past you  
Like I'm not a human being with feelings  
Love and compassion sitting here  
Don't you dare feel sorry for me  
Just give me a chance  
His reality's cool  
His mind stays strong  
Hey I'm alive

A thousand passersby just walk on  
His luxuries of life have been taken away  
I wish someone would stop me  
Every time that I complain

Taken Away

Don't you forget  
Taken Away  
He would give anything  
Taken Away  
For a working body  
Taken Away  
Don't throw your blessings away  
Taken Away
