finally one more chance to breathe
one more chance to live
i'm gonna get it back
for you i'll get it back

i would do for you
this time i swear
this time i'll care
this time i'll give

again i have the time for you
i have no time for me
i only care
because you're there

i would do for you
this time i swear
this time i'll care
this time i'll give

times i'll be around
i promise to be the same for you
be the same for you
i was your wants

i would do for you
this time i swear
this time i'll care
this time i'll give
