## Alone

It doesn't matter anymore It doesn't matter anymore I'm not the person I used to be I'm not the man I thought I once was

I don't know quite where I am Where I am where I am I'm sitting here in a dark corner Looking at nothing but always something Always something

My eyes are fixed on a vision Of you, of you My eyes are fixed on a vision Of you, of you Of you Of you

From: A Moment In Time
