

## Fall Apart

Ikon

If I wake from dreams  
Shall I fall in pastures  
Will I wake the darkness  
Shall we torch the earth

If I wake from dreams  
Shall we find the emptiness  
That breaks the silence  
That shall stop our hearts

If I wake from dreams  
Shall we cry together  
For the howling echoes  
And restart the night

And why did you say  
That things shall fall  
And fall and fall and fall  
And fall apart (2)

If I wake from dreams  
For the glory of nothing  
For the cracking of the sun  
For the crawling down of lies

If we fall from dreams  
Shall we push them into darkness  
Stare into the howling  
And clamber in the night

If we fall from dreams  
All my prayers are silenced  
To love is to loose  
And to loose is to die

And why did you say  
That things shall fall  
And fall and fall and fall  
And fall apart (3)

And why did you say  
That things shall fall
