

## For Eternity

Ikon

A place where we are one  
We can't be touched

Together we stand alone  
We are one

A moment that we will share  
That means so much

You are everything  
You are everything  
To me

This love  
That fills our hearts  
I give it all

Through this  
We live our dreams  
You and I

A moment  
Stood still in time  
Forever with you

This is for real

Everything is for real
