

For Eternity

Ikon

A place where we are one
We can't be touched

Together we stand alone
We are one

A moment that we will share
That means so much

You are everything
You are everything
To me

This love
That fills our hearts
I give it all

Through this
We live our dreams
You and I

A moment
Stood still in time
Forever with you

This is for real

Everything is for real
