

Hallowed Ground

Ikon

We come together
Though as one
I'm waiting for you
To be the one

We come together
In this place
Something surrounds me
So powerful

And when we dance
There lies untold
Belief and rituals we behold
Into the night there comes the cold
The door is open

And when we dance
There lies untold
Belief and rituals we behold
You can't escape the hallowed ground
The hallowed ground

We come together
You and I
We come together
You and I

And when we dance
There lies untold
Belief and rituals we behold
Into the night there comes the cold
The door is open
And when we dance
There lies untold
Belief and rituals we behold
You can't escape the hallowed ground
The hallowed ground

And when we dance
There lies untold
Belief and rituals we behold
Into the night there comes the cold
You can't escape the hallowed ground
