

Persuasion

Ikon

I give you everything you want
I give you everything you need
I give it to you all
I give it to you all

When this is all I am
When this love is all I have to give
When I'm frightened like a child
In your arms I am safe again

I am with you

I'm watching everything you do
I'm watching it all
I would give it all away for you
Everything for you
