

The Shallow Sea

Ikon

Is this for real you ask
Or more of just the same
A flicker in the night
A world that seems so lame

Take me through the far side
Across the barren stream
I see the light of earth
Inside this endless dream

I see you far from here
And fall into a trance
Confusion takes the best of me

I walk a further motion
And glance into this sea
This holds to tranquility

How could you let this be
And leave this situation
A larger part of me
Won't hold this devastation

Take me through the far side
Across the barren stream
I see the light of earth
Inside this endless dream

I see you far from here
And fall into a trance
Confusion takes the best of me

I walk a further motion
And glance into this sea
This holds no tranquility

The shallow sea
The shallow sea
