

## The Shallow Sea

Ikon

Is this for real you ask  
Or more of just the same  
A flicker in the night  
A world that seems so lame

Take me through the far side  
Across the barren stream  
I see the light of earth  
Inside this endless dream

I see you far from here  
And fall into a trance  
Confusion takes the best of me

I walk a further motion  
And glance into this sea  
This holds to tranquility

How could you let this be  
And leave this situation  
A larger part of me  
Won't hold this devastation

Take me through the far side  
Across the barren stream  
I see the light of earth  
Inside this endless dream

I see you far from here  
And fall into a trance  
Confusion takes the best of me

I walk a further motion  
And glance into this sea  
This holds no tranquility

The shallow sea  
The shallow sea
