

# The Wish

Ikon

Across the ocean  
In this bitterness I wear  
I sent you Flowers  
I hope you know I care

And if you are in doubt  
Undo this situation  
Embrace me as you leave  
If ever it could be

The world that is beside you  
Has been your hope this far  
To be what you have wished for  
Is now my guiding star

Across the land  
In this bitterness inside me  
I've walked around  
Enclosed myself with weeds

I heard a sound  
As if someone stood behind me  
As I turn  
No one else is there

The world that is beside you  
Has been your hope this far  
To be what you have wished for  
Is now my guiding star
