

# Against The Wall

III Niño

You say that my life is actually vain  
Your standards just seem so plain  
(just don't give in)

You know, you know I'm not running for cover  
The bullets could fly by my head  
Hold on to the progress and don't give in

I love this place but I won't suffer from your ignorance  
You say this place is not my home it's not my home  
It's not my

I'm against the wall I'm against the wall  
But I will fight and I won't fall  
Never keep me against the wall  
I'm against the wall I'm against the wall  
But I will fight and I won't fall  
Never keep me keep me against the wall

You say your politics actually sober  
The sympathy seems so lame

You know, you know when the dead taken over  
Bullets we're calling your name  
Hold on to the progress and don't give in

My love is pleased but I won't suffer stupid ignorance  
You say this place is not my home it's not my home  
It's not my ...

I'm against the wall I'm against the wall  
But I will fight and I won't fall  
Never keep me against the wall  
I'm against the wall I'm against the wall  
But I will fight and I won't fall  
Never keep me against the wall  
Never keep me against the wall

From now until forever  
Never surrender  
From now until forever  
Never surrender  
From now until

I'm against the wall I'm against the wall  
But I will fight and I won't fall  
Never keep me against the wall  
I'm against the wall I'm against the wall  
But I will fight and I won't fall  
Never keep me against the wall

I'm against the wall I'm against the wall  
But I will fight and I won't crawl  
Never keep me, keep me, keep me  
keep me against the wall
