

Demi-God

III Niño

Sinco
Its for you now
Worship
Sinco
Sinco
Pay the price of what you burn burn burn
Evil
I don't know anymore
Now there's the real just keeping you cold but calm
Now I know who they are
Now I know where they are
Now I know where the dead goes wrong
Listen, prey mess up, their mess up
Don't get me started

You left a spike in the war
(burn burn burn)
Accepting your confession
To wash the past away
You left a spike in the water
(burn burn burn)
This places your salvation
To take your last strength

No one
Surrender
Mi dios is my intention
Madaro madaro
En et I salvador
Will you be my dead solution?
Serve every sinner
Deceive us
They come to serve the lies
Listen, prey mess up, their mess up
Don't get me started

You left a spike in the war
(burn burn burn)
Accepting your confession
To wash the past away
You left a spike in the water
(burn burn burn)
This places your salvation
To take your last strength

Se sinco...

No more...

Come on...

Let me in right below...
That means you're right below...
