

## Escape

III Niño

Well uh, you see, we have another thing  
Taking the needle you scrape me again  
I'm scraping the faces they're under my skin  
I'm scraping the needle and waiting again  
For my own infliction to burn in my sin  
No  
Scraping away (burn)  
Stripping away (burn)  
Scraping the lie (burn)  
Scraping the way (burn)

None to sever  
To relieve this pain forever  
No  
Scraping the pain  
No  
Burning in bed  
No can surrender  
To relieve this shame for endeavor  
No  
Scraping the pain  
No  
Burning in bed

(I'm escaping  
I'm puncture with your sting  
I'm just scraping  
Your poison fields like I'm  
I'm escaping  
I'm puncture with your sting  
I'm just waiting  
To fall under your weight)

No  
Stripping the pain  
Stripping alone  
Scraping alone  
To attest and fading  
To cut out your soul show pretension  
No  
Scraping the pain  
No  
Burning away  
Collapsed and breaking  
To encase my own extinction  
No  
Scraping the pain  
No  
Burning in bed

I'm escaping  
I'm puncture with your sting  
I'm just scraping  
Your poison fields like I'm  
I'm escaping  
I'm puncture with your sting  
I'm just waiting

To fall under your weight
