

Te Amo... I Hate You

III Niño

Te amo... I hate you
Te amo and I hate you
Te amo... I hate you
You always think that you are right

Everything you ever promised to not do you did
You fucked me up so just admit it
You are just another bitch and I know that you did it
How could you let us split in two

I was just another game so fuck you
There is nothing I could do
You're so tough, so bad, so cold
But now you eat your words

Don't try
Telling all your fucking lies
'Cause I
Make you eat your words and die
Don't try
Telling all your fucking lies
'Cause I
Make you eat your words and die

Think you're better but I know that you will never get it
This page will turn and you'll regret it
Everything you ever promised to not do you did
How could you let us split in two
