

In Search Of Souls

Illdisposed

It's sick mama - but it's back down on your knees
You'll scream and I'll laugh, the sickest I can be
Come on baby you'll even learn my name
It's pain - it's your gain - just fucking go away
I'll introduce you honey

Inside
Where creatures come and go
In search of souls
Inside
Your heart is empty but who looks

It's time, just close your eyes
Search, obey - baby feel my needs
Know the pain, as it hurts your soul
Fall you cunt - fall into place

You will now taste my hand
