

# Big Black Hole

## Illusion

Many questions many different questions people looking for  
And still no answers and still without joy  
Many people too many thinks too many points of view  
And still no answers and still without Big Truth

Many questions many different questions people looking for  
But our life is a lonely life like a Big Black Hole  
Our child our lonely child second question mark  
Our wives our lonely wives still waiting for us

Our world ...

Many questions many different questions people looking for  
And everybody hurting everyone  
It's too much pain for you

Our world is a Big Black Hole
