

No man

Illusion

I'm nowhere man
I come from nowhere to you
Just like a thunderstorm
I'm the last one
Fuckin' thorn in your brain

I'm not a man
I come from nowhere to you
Just like a rain cloud
I'm the last one
Fuckin' tear in your blind eye

And never
You don't try to runaway from me
And never
You don't try to hide before me

Because you know
I'm your friend
I'm the last
In your deserted home

You'll never die !
