

## Peaceful In Mine

Ilse DeLange

When the sun comes up  
On another day  
And the sidewalk shines  
And the streetlights sway  
In the autumn wind  
Hard, like the times  
I'll dream of yours  
Peaceful in mine

And when the stars  
Fall out of sight  
A flame will burn  
In a frozen night  
With a simple wish  
In these violent times  
To dream of yours  
Peaceful in mine

Where we walk down that road again  
Innocent strangers, eternal friends  
In a world of our very own  
Far from space and time  
With yours, peaceful in mine

Where we walk down that road again  
Innocent strangers, eternal friends  
In a world of our very own  
Far from space and time  
With yours, peaceful in mine

So wait for me  
Up there tonight  
And we'll dance on  
Till the morning light  
Leaving all but faith behind  
And yours peaceful in mind

With a simple wish in these crazy times  
And yours, peaceful in mine
