

Something Amazing

Ilse DeLange

I've walked in these old shoes
I feel they fit me best
They're just a little loose
They get me where I go
They've been there, watched me grow
And put me to the test

I've been told so many times
Be careful you might fall
I'm ready for it all

What would you say
If we could make something amazing
Is it too far to where you are
Look at me changing
One frame out of time
I'm crossing the line
To something amazing

I thought the world was small
I thought I'd seen it all
But now it turned around
It's all upside down
I throw these shoes away
And get a brand-new pair
To take us out of here

Look how they make me shine
Just like Queen Valentine
This is a special day

What would you say
If we could make something amazing
Is it too far to where you are
Look at me changing
One frame out of time
I'm crossing the line
To something amazing

Can't find the reason, hiding away
Why did it take so long
Empty excuses, scared of what truth is
Kept me from moving on

What would you say (2x)

Is it too far to where you are
Look at me changing
What would you say
If we could make something amazing
Is it too far to where you are
Look at me changing
One frame out of time
I'm crossing the line
To something amazing
This is something amazing
Something amazing

This is something amazing
