

## Close Your Eyes

IM5

Play in back when the beat drops make it hot girl  
Kiss me  
Come on girl, kiss me  
Kiss me

Straight to your heart girl  
Just like in your dreams  
I knew from the start girl  
I had to have you next to me

Nows the time for me to cross the line  
Look into my eyes, to my eyes, to my eyes  
Could be my firework lets go  
Just light up the night  
The night

All I wanna, all I wanna do  
Is give you something you  
Don't wanna lose  
It's written in the stars I'm meant to be with you

So close you eyes  
Close your eyes and count to tree  
Close your eyes (6x)  
Just close your eyes

Play in back when the beat drops make it hot girl  
Come on, kiss me, kiss me  
Come on, kiss me  
Come on, kiss me, kiss me  
Come girl, kiss me  
Come on, kiss me, kiss me  
Come on, kiss me  
Here in my arms girl thats where you need to be  
I knew from the start girl  
I had to have you next to me

Nows the time for me to  
Cross the line  
Look into my eyes, to my eyes, to my eyes  
Could be my firework lets go  
Just light up the night  
The night

All I wanna, all I wanna do  
Is give you something you  
Don't wanna lose  
It's written in the stars I'm meant to be with you

So close you eyes  
Close your eyes and count to tree  
Close your eyes (6x)  
Just close your eyes

Play in back when the beat drops make it hot girl

Come on, kiss me
