

# Me And This Girl

IM5

I'll take you girl  
Just anywhere you wanna be  
Your every desire  
I'll change your world  
From agony to ecstasy  
Go higher and higher with me

Me and this girl got this thing  
Just but she don't know it yet  
But the sadness in her eyes  
If she could only see  
That I could make her so happy  
And it feels like the moment now

And lemme say just this  
Forget your past imma be your future  
So gimme just one kiss

I'll take you girl  
Just anywhere you wanna be  
Your every desire  
I'll change your world  
From agony to ecstasy  
Go higher and higher with me

Higher, higher

Me and this girl got this thing  
Beautiful as she can be  
I can see us already  
Hanging at the beach with our friends  
Side by side and hand in hand  
And it feels like the moment now

And lemme say just this  
Forget your past imma be your future  
So gimme just one kiss  
Higher and higher

I'll take you girl  
Just anywhere you wanna be  
Your every desire  
I'll change your world  
From agony to ecstasy  
Go higher and higher with me

Let me take you higher  
To the clouds in the sky in the moonlight  
Higher  
To the starlight  
Higher  
And I know when you know  
You don't just have you  
Come on baby let me love you

And lemme say just this  
Forget your past imma be your future

So gimme just one kiss  
Higher and higher

I'll take you girl  
Just anywhere you wanna be  
Your every desire  
I'll change your world  
From agony to ecstasy  
Go higher and higher with me

Higher  
To the clouds in the sky in the moonlight  
Higher  
To the starlight  
Higher  
And I know when you know  
You don't just have you  
Higher  
Come on baby just let me love you

I'll take you girl  
Just anywhere you wanna be  
Your every desire  
I'll change your world  
From agony to ecstasy  
Go higher and higher with me
