[Cole:]

Uh, you're the sun, girl (oh)
Shine your light into my world (oh)
And now my love goes around, round, round
Ra ra ra round ya
Round, round, round for you

[Will:]

You're the starlight (oh)
Girl I could stare at you all night (oh)
So fly I'll never come down, down, down
Da da down, down ya
Down, down, down for you

Taking off, your love puts me on a cloud
I never wanna touch the ground
I never wanna touch the gr-gr-gr-gr-ground
Zero gravity

[Dalton:]

You're the moon girl (oh)
Look how you light up the room girl (oh)
And I like spending every day, day, day
Da da da day ya
Day, day, day with you

[Gabriel:]

How did you open up my heart
Ya you did it, you did it
And when I feel your touch girl
You give me wings to fly away, way, way
Wa, wa, wa, way, ya
Way, way, way with you

Taking off, your love puts me on a cloud
I never wanna touch the ground
I never wanna touch the ground again
And when you smile
There is zero gravity now
I never wanna touch the ground
I never wanna touch the gr-ground
Zero gravity

[Dana:]

Just wanna float forever
I don't wanna touch down
I don't wanna touch down
I-I-I don't wanna touch down
I don't wanna touch down
Just wanna float forever
I don't wanna touch down
I don't wanna touch down
I don't wanna touch down
I don't wanna touch down

Taking off, your love puts me on a cloud
I never wanna touch the ground
I never wanna touch the ground again
And when you smile
There is zero gravity now
I never wanna touch the ground
I never wanna touch the gr-gr-ground
Zero gravity
Zero gravity
