Cool Cool Universe

Ima Robot

Every time they bomb a baby, I go insane
Breathe it off but don?t feel the pain
Start thinkin? to start drinkin?, numb yourself to kill the brain
But I still got pain, I can?t stop the rain

F*** that, what about the thriving? But it's hard to be alive When everybody?s just jivin? All eyes on me

I?m gonna set the truth free Contradictions

?Cause it?s a cool, cool, cool universe And all the wonderful things just make it worse I?ve gotta owe, owe, owe, owe it first You?re such a cool, cool, cool universe

Every time they tell me to vote I lose my hope You could represent me? Now that?s a joke Start rootin? for some shootin?, no solution for what?s broke But I still got hope, I can?t shake the hope

Don?t give me the lies
Man, I know there?s no rhyme or reason
Still everybody?s schemin?
To prove they know the meaning of this big mess

Well, I?m not impressed Disillusioned

?Cause it's a cool, cool, cool universe And all the wonderful things just make it worse I?ve gotta owe, owe, owe, owe it first You?re such a cool, cool, cool universe

And it's a cool, cool, cool universe And all the wonderful things just make it worse I?ve gotta owe, owe, owe, owe it first You?re such a cool, cool, cool universe

Oh, ow, stop it hurts, pretty things make it worse Soon I'ma hit the dirt so unfair, such despair Poetry, beauty, desperation of love I?m talkin? ?bout romance, slow dance, can?t get enough

I?ve climbed all the highest mountains I?ve done every drug in reach I?ve made love to pretty women While the sun set on the beach

But no good time goes unmourned No good heart goes untorn Good or bad, it?s all sad And my acceptance is born

?Cause it's a cool, cool, cool universe

And all the wonderful things just make it worse I?ve gotta owe, owe, owe, owe it first You?re such a cool, cool, cool, cool universe

And it's a cool, cool, cool universe And all the wonderful things just make it worse I?ve gotta owe, owe, owe, owe it first You?re such a cool, cool, cool universe

Break my heart
