

Eskimo Ride

Ima Robot

Whether we are together
We weather the party together
It's better, better with the lights off
Manana, we don't know what that means

All aboard

We don't care where we're going as long as we don't arrive
We're all on my bad machine and prove that we are alive
Take us on great adventure drive, Eskimo drive
Party on the Eskimo ride

Either just jagged a dandy
The ether sticks just like candy
We're passing Pluto, Carl Sagan eat your heart out
La negra, we like the way that sounds

La negra, spasiba, fur alles

We don't care where we're going as long as we don't arrive
Keep on my bad machine and live a wonderful life
Take us to happy endings, drive, Eskimo drive
Party on the Eskimo

We don't care where we're going as long as we don't arrive
We're all on my bad machine and prove that we are alive
Take us on great adventure drive, Eskimo drive
Party on the Eskimo ride, have your fun on Eskimo ride
