

Let's Talk Turkey

Ima Robot

Life, a reaction to emptiness
Time continues for the Boogymen
Just give me one chance
To feature you in sunshine
And we could both dance
The aphids swarm away

Hello, hello
Losing concentration
Losing motivation
Losing ground

Solo, solo
Don't like moderation
Starved for conversation
Are you down?

Love, a reaction to some soft skin
What about trust?
I've seen it here and there
Just give me some girls
Be careful what you wish for
So take me out
Woo, honey, let's go dancing

Hello, hello
Losing concentration
Losing motivation
Losing ground

Solo, solo
Don't like moderation
Starved for conversation
Are you down?

Don't stop wasting people's time
One day, soon you're gonna shine

Hello, hello
Losing concentration
Losing motivation
Losing ground

Solo, solo
Don't like moderation
Starved for conversation
Are you down?

Hello, hello
Losing concentration
Losing motivation
Losing ground

Solo, solo
Don't like moderation
Starved for conversation
Are you down?

Are you down?

Don?t stop wasting people?s time
