

Love Is A Boombox

Ima Robot

A long time ago
A storm ripped my heart
She's mean
But I'm letting you know
This
Is the end.

Oh, here in the dark, the taste is sweet
Out in the park, off an unknown street
I've got to find, what it is I like
The monster awaits for me tonight
You don't have to run
When you've got that sweet gun
Just use it to blow
When the night beats slow
You aim for my head
But hit your knees
Heaven will know what you mean to me
I'm the one that got my soul knifed

Hey you evil motivator
Sucking on the now and later
Love's a boombox
Turn the fader
LOUD
I'm in love again
Doooo dooo doooooo dooooo!

Now I'm Darth Vader
Once was beat but now it's later
Love's a boombox
Turn the fader
LOUD
I'm in love again
Dooo dooo dooo doooooo!

Meet you up in the hills
For cigarettes
Sinking your teeth into my neck
You've kept me alive
I couldn't escape
'cause heaven was full and hell can wait
You held my hand
I kissed your feet
I was a slave that you would beat
Had no strength to hit you back
Broke my heart and left me cracked
Without a name I loved for you

Hey you evil motivator
Sucking on the now the later
Love's a boombox
Turn the fader
LOUD
I'm in love again
Dooo dooo doooo dooo!

Now I'm Darth Vader
Once was beat but now it's later
Love's a boombox
Turn the fader
LOUD
I'm in love again
Dooo dooo dooo doooooo!

Voice: I've been hunting you down your whole life
Ima Robot: I can't be scared anymore
Voice: Oh, Here I come
Ima Robot: I got my light saber now
Voice: What?!
Ima Robot: That's right, I've been practicing
Voice: What are you doing?
Ima Robot: Bitch, I'm gonna kill you this time

Now I'm Darth Vader
Once was beat but now it's later
Love's a boombox
Turn the fader
LOUD
I'm in love again
