## **Calm Before The Storm**

**Imaginary Cities** 

Hmmm

Let the day go on Let it roll with ease Let him be the one You know, you know you need Let the catcher see, what you can afford We'll worry about the future when everybody's cruel

Hmmm

Money is good for nothing Except everything it's true The more you give, the less you'll need It never looked that good on you He done ran away Person they all adored In the calm The calm before the storm He done ran away Person they all adored In the calm The calm before the storm

Ooh ooh ooh
