

## That's Where It's At, Sam

### Imaginary Cities

We have seen this sight,  
Still in the darkest night  
Now it surrounds us  
Coming to an end  
Easy when you pretend  
It hasn't found us  
It hasn't found us

With the old parade  
Let them all lead the way  
We need to see them  
Knowing time would pass  
We're hoping that it lasts,  
That's where it's at, Sam  
That's where it's at, Sam  
That's where it's at, Sam  
That's where it's at

Put all our energy  
Into our love  
Hoping we'd make it through  
Together

With the old parade  
Let them all lead the way  
We need to see them  
Knowing time would pass  
We're hoping that it lasts,  
That's where it's at, Sam  
That's where it's at, Sam  
That's where it's at, Sam  
That's where it's at, Sam  
That's where it's at, Sam
