

Soon (i Like It)

Imani Coppola

Soon they'll be coming and knocking at my door
Not looking for no trouble, not asking for a war
Giving much respect to our creators, yes they are
Little aliens but their views are very far from ours

The human being will have you seeing
Ain't nothing more important than the money we bring in
Sorry, it seems to me they're coming down
For all phony fellows technological clowns

I like it, simply 'cos I like it
The weather it's pretty, I think I'm gonna hike it
No matter where I go, there I am, it's simple
I like it, I like it, I like it

Try it, you just might like it
Try it, you just might like it
Try it, you just might like it
Try it, you just might, just might like it

Little tiny creatures with very big eyes
Extremely intellectual, despite their size
Holding in their heads the knowledge of the universe
And watching it for so long and yes it's gotten worse

What in the world do I know? I'm just a homosapien
My god, it's wacky, it's weird, it's crazy and complicated
What the hell did we do?
Don't look at me 'cos I haven't got a clue

I like it, I like it, simply 'cos I like it
The weather it's pretty, I think I'm gonna hike it
No matter where I go, there I am, it's simple
I like it, I like it, I like it

Try it, you just might like it
Try it, you just might like it
Try it, you just might like it
Try it, you just might, just might like it

Wondering when they'll come for me
Take me away where I can be free
Until that day I will sit here and pray
For them to come and take me away

You hate it, you hate it complicated, yes you hate it
You're weak, I love it, you can't segregate it
Too late, it's fate, you can try to sedate it
Complicated, you'll hate it

I like it, I like it, simply 'cos I like it
The weather it's pretty, I think I'm gonna hike it
No matter where I go, there I am, it's simple
I like it, I like it, I like it

Try it, you just might like it
Try it, you just might like it

Try it, you just might like it
Try it, you just might, just might like it

Try it, you just might like it
Try it, you just might like it
Try it, you just might like it
Try it, you just might, just might like it

Just might, just might like it
I like it, just because I like
I like it, I like it, I really like it
I like it, I like it, just because I like
It's simple, I like it

I like it, just because I like
I like it, I like it, just because I like
I like it, I really, really like it
It's brilliant, I like it, I like it
