

Please and Change

Imany

I could say please, please, please ...
You'll never change, change, change...
I could say please, please, please...
You'll be the same, same, same...

I'm a fire sign
You're a water sign
I know you and I
Will never fly

We already tried
A million times
I know the alibis
Of all your crimes

But I could say please, please, please ...
You'll never change, change, change...
I could say please, please, please...
You'll be the same, same, same...

I know your game
You're the same man
I know the game
It has your name

And I have to leave
I'm the one to blame
Cause I believed
Everything you said

But I could say please, please, please ...
You'll never change, change, change...
I could say please, please, please...
You'll be the same, same, same...

Love ain't my friend
And at the end
The hero dies
With all your lies

And I'm a fire sign
You're a water sign
I know you and I
Will never fly

I could say please, please, please ...
You'll never change, change, change...
I could say please, please, please...
You'll be the same, same, same...

I could say please, please, please ...
You'll never change, change, change...
And I could say please, please, please...
You'll be the same
You'll be the same
You'll be the same
You'll never change

No no no

You'll never change
