

Bad Habit

Imelda May

Went for a walk and what did I see
A pair of Louis Vuitton looking back at me
I long to live in luxury
But I got a little baby, got a mouth to feed

Spending money like I have it
A bad habit spending money like I have it
Spending money like I have it
A bad habit spending money like I have it

Postman said hey what do you do?
I'm calling on you every afternoon
I said I got a little mouse, no face no hair
And I click I'm and I click I'm like a millionaire

Spending money like I have it
A bad habit spending money like I have it
Spending money like I have it
A bad habit spending money like I have it

Yeah [x4]

My hands gets sweaty my knees go weak
My heart starts thumping-thumping extra beats
I know I'm being petty getting ready to pounce
But nothing beats a fifty-five percent discount

I went to the doctor to find the truth
Am I addicted to spending should I join a group
But doctor said girl to my surmise
There's nothing wrong with you but your bank account

Spending money like I have it
A bad habit spending money like I have it
Spending money like I have it
A bad habit spending money like I have it
