

Feel Me

Imelda May

Baby baby can't talk to you
Don't know what to do with myself
Keep everything in, pity isn't my thing
But I'd really do with some help
Pull it together, hold your head up high
Get on with life as you do
But that doesn't help me when I'm cut up inside
Hurtin' and cryin' over you

Feel me, feel me
Feel what I'm feeling inside?
See in me, see in me
See all the hurt in my eyes

You've hurt me like never before
Dragged my heart from heaven to the floor
No matter what you do from now
Won't be the same anymore
No

Feel me, feel me
Can't you feel what I'm feeling inside?
See in me, see in me
See all the hurt in my eyes

Baby you're sorry I'm sorry too
Believe it when I'm talking to you
Said I'm so sad you couldn't come to me
Instead of finding somebody new
I'm no angel, that I'd never claim
But I thought I was nobody's fool
But I'm still yours baby and you're still mine
Don't know how it works now do you know?

Feel me, feel me
Can't you feel what I'm feeling inside?
See in me, see in me
See all the hurt in my eyes

You've hurt me like never before
Dragged my heart from heaven to the floor
No matter what you do from now
Won't be the same anymore
No, no...
