

# Leave Me Lonely

Imelda May

Why does the night feel longer than it really is  
When you've gone and left me, yeah you left me, yet again  
And how come it's different, it isn't what I thought I needed  
Why do I miss you, want to kiss you, when I think you're leavin'  
Why do I long for you more

When you leave me lonely  
Leave me only  
With the scent of your skin  
Scene of our sins in the dark  
Leave me wanting  
To feel you holding me  
Closer than ever  
So close to heaven  
That you never  
Leave me lonely

It's ok, I'm all good, ain't sayin' couldn't live without you 'cause  
I could  
But I'd rather, rather have you, wanna love you, love you like a woma  
n should  
Oh baby, won't you take me, hate to admit it but I'm crazy  
For you, for us, for this, whatever this is  
So love me once more before

You leave me lonely  
Leave me only  
With the scent of your skin  
Scene of our sins in the dark  
Leave me wanting  
To feel you holding  
Me closer than ever  
So close to heaven  
That you never  
Leave me lonely

Love me, hold me, don't leave me lonely  
Take me, make me, baby don't break me  
Kiss me, miss me, tell me you'll take me with you

Don't leave me lonely  
Leave me only  
With the scent of your skin  
Scene of our sins in the dark  
Leave me wanting  
To feel you holding  
Me closer than ever  
So close to heaven  
That you never  
Leave me lonely
