

Meet You At The Moon

Imelda May

We are looking at the same moon
Though we are miles apart
We are wishing on the same star
When you are deep in my heart

I don't know if you know
But when we miss each other soul
Look up, I'll meet you at the moon

We are staring at the same sky
Strange as it seems
We're sitting at the same earth
Though there are oceans between

I don't know if you know
But when we miss each other soul
Look up, I'll meet you at the moon

I'm party of you and you're part of me
But it's a cold old world
When you are missing somebody

Without you I wouldn't, couldn't be
So when your heart is aching
Then it can't take much more breaking

We are looking at the same moon
Though we are miles apart
We are wishing on the same star
When you are deep in my heart

I don't know if you know
But when we miss each other soul
Look up, I'll meet you at the moon
