

# Psycho

Imelda May

Keep on takin' your medication  
Lock that temper behind those pills  
Your brain is flyin', insanely fryin'  
Just remember it's bad to kill

I go with a psycho  
I go with a psycho

No more growlin', stop your prowlin'  
Leave those cars and people alone  
You're an animal, a human cannibal  
Snarlin' and a snappin' like a dog on a bone

I go with a psycho  
Yeah, I go with a psycho

You terrify the neighbors when you scream and shout  
You look like it's contagious, you're foaming at the mouth  
You're a freakin' nightmare when you're lyin' in my bed  
You sleep with eyes wide open like the living dead

I go with a psycho  
I go with a psycho

You terrify the neighbors when you scream and shout  
You look like it's contagious, you're foaming at the mouth  
You're a freakin' nightmare when you're lyin' in my bed  
You sleep with eyes wide open like the living dead

I go with a psycho  
I go with a psycho  
I go with a psycho  
I go with a psycho

I go with a psycho  
Yeah, I go with a psycho  
Yeah, with a psycho, psycho  
Yeah, yeah, yeah, yeah
