

# I Wanna Know You That Way

Immature

Immature, kick that for all the ladies out there

There's a way, we both feel, as one  
Here inside my heart, until we understand  
That love takes forever, hold me now  
I'll make you secure so let's make it tonight, yeah

I wanna know u that way, that way  
I wanna know u that way, that way  
I wanna know u that way, that way  
I wanna know u that way

In your eyes, someone tells to me  
This could never be, and still I can't ignore  
This feeling of me  
I'll make you secure so let's make it tonight, yeah

I wanna know u that way, that way  
I wanna know u that way, that way  
I wanna know u that way, that way  
I wanna know u that way

Wanna know you in that way (2x)

Wanna know you in that way (That way)

I wanna know u that way, that way  
I wanna know u that way, that way  
I wanna know u that way, that way  
I wanna know u that way
