

## Old Man Blues

Immer

deep wrinkles and shallow breathing  
sad pale face and shaking hands  
century old man, chronicle alive  
clamped lips ... singing anyway

old man's blues

experienced everything, saw such as things  
war and peace, rationed food  
illness and suffering, pain and fear  
joy and letdown, victory and failure

old man's blues

old man guesses he's passed all  
nothing can surprise this old dog  
he would rather close the case  
unable ones leading instead of capable

left to wait for his expired date  
cannot get it cannot understand  
beg for candle to burn out  
clamped lips ... calm voice goes out

old man's blues

"I am old man, i'd like to go now,  
nothing keeps me here, i don't wanna live anymore "
