## World Agony

## Immolation

War on our hands, war on our minds Beat on the drums, beaten our hopes Nothing is left, nothing is gained Angry at one, angry at all

World in Agony, World in pain World in Anger, World of shame

The error of man, the error of faith Shaping tomorrow, destroying today Nothing ahead, nothing to be Anger is one, anger is all

World in Agony, World in pain World in Anger, Word insane

Cursing ourselves, causing our death Abusing the earth, it's coming apart Can we undo, what we have done Before we undo, what we become

The earth is bitter The earth is black What have we done There's no going back
