

Closing In

Imogen Heap

I can't wait...to be with you.
No, I just can't sit still....are we there, yet?
Takes me back...I remember.
Such a magical place...
It was all you

Closing in...I hope that you make it.
Closing in...I hope that you find your way.

Frame by frame...
Red speed ahead.
A city dissolving, the thread of your love in the headlights.
Is it safe now...will your arms be open?
I just have to kiss you...try and stop me.

Closing in...I hope that you make it.
Closing in...I hope that you find your way.
Closing in...it's all that I want... in the whole world.
Closing in...please be mine... please be there.

What are you like?
Where did you get to?
No word, not nothing
You didn't hold me, for any longer.
What you want for the fear of love?
Oh, don't you believe enough.
Well I'll cover both of us. You can!
Leave that to me!

Closing in...I hope that you make it.
Closing in...I hope that you find your way.
Closing in...closing in...
