

# Have You Got It in You?

Imogen Heap

It takes a lot...to be always on form...  
It takes a lot.  
I maybe not...all the time, all I've got...  
Maybe not.

Been one of those days...  
Safety first, don't push...what's the hurry?  
One nerve remaining, waiting on one look....have you got it?  
Have you got it in you?  
Have you got it in you?

All at once, not a whisper, nor word.  
Then all at once...  
Let me have it all, let me have a battle on,  
Easy target,  
Look can we just...just get it over with.  
It's getting worse, against all the odds...  
It's getting worse.  
(Guard down, floor's yours, last man standing can we, just get  
it over with.)

Been one of those days...  
Safety first, don't push...don't push me...what's the hurry?  
Cause there's One nerve remaining, waiting on one look,  
One look now...have you got it?  
Have you got it in you?  
Have you got it in you?

Blue blue day make me blue...  
Head down, quick! Take cover, big girl in a mood.  
Blue you, make me anymore blue?  
Long spin shout power clean right out of your suit.

One more, one more, one more, one more

Been one of those days...  
Safety first, don't push...what's the hurry?  
One nerve remaining, waiting on one look...have you got it?  
Have you got it in you?  
Have you got it in you?  
Have you got it in you?  
Have you got it in you?
