

# Hardboiled And Still Hellbound

Impaled Nazarene

Fuck you please, then some more  
Hardened beyond believe  
All these years have taught us well  
There's no compassion at all

We detest you and your world  
And everything it stands for  
We won't conform to your rules  
High above the norm

We have been chosen to fuck this world  
Born to raise hell  
So stab our back but we will survive  
Because we are true alpha males

We have been to hell and back  
Done things you see wet dreams of  
We have been to places you  
Don't even know exist  
So stop wasting our time  
We will be here forever  
Do bear this in your mind  
You cannot bring us down

Fuck you please even more  
You cannot be like us  
And mark my words, this is how  
History is being made

Which part of fuck off don't you get?

We are hardboiled and still fucking hellbound  
We don't give a flying fuck  
We are hardboiled and still fucking hellbound  
Fuck off you fucking useless cunts
