

I Wage War

Impaled Nazarene

Tree hugging hippies
Spoonfed scum
You worship Che Guevara
Your politics are sick

I wage war against your world
Will you live to see the end?

Pteromys volans crap
Blocks the way to progress
Two step forwards
And three steps back

I wage war against your world
Will you live to see the end?

Downhill since '88
There is no future for green generation

How can this country
ever to develop
When you are forcing
your sickening ideology

I wage war against your country
You won't live to see the end!!!
