Destruction

Impellitteri

Feels like we're losing ground With every step we take Why must we live in so much horror There's not much time left Before we slip away And we don't have the time to borrow

A new day arrives Another page in history slips away But no one seems the wiser Haven't we learned War is not the way to save mankind It only breeds destruction Destruction...no one sees Destruction

I can't make out that image Lurking in the shadows Looks like someone has lost their way Billions spent on the bomb While children end up starving Could this be the only way

A new day arrives Another page in history slips away But no one seems the wiser Haven't we learned War is not the way to save mankind It only breeds

A new day arrives Another page in history slips away But no one sees Destruction...no one sees Destruction...no one sees Destruction...no one sees Destruction...no one sees
