```
(Do you fear evil?)
```

Rich man looking down his nose at you He's got the good life and you get abused The Lazarus syndrome is in your face Sores on your back, begging at the gate

Rich man dies and he goes to hell Wish he had a dime for the wishing well Send down Lazarus to cool my tongue Agony and torment ain't no fun

Hell, yeah! The fire burns, and it's waiting there for you Hell, yeah! You better learn 'cause there's nothing you can do

I will fear no evil, I will conquer all the demons I will hear no evil, I will conquer all the beasts

Rich man begging for another chance Go tell my brothers (to) avoid this dance Can't cross the river, the gulf is fixed Misery, suffering, eternal bliss

Hell, yeah! The fire burns, and its waiting there for you Hell, yeah! You better turn 'cause there's nothing you can do

I will fear no evil, I will conquer all the demons I will hear no evil, I will conquer all the beasts I will speak no evil, I will conquer all the demons I will see no evil, I will conquer all the beasts

Fear no evil Fear no evil Fear no evil Fear no evil

I will fear no evil I will fear no evil I will fear no evil I will fear no evil

(Do you fear evil?)
