

Only In My Mind

Imperative Reaction

You know it's true
And though I tried to hide it
It shows in you
I know it's true
And though you still deny it
I see right through
All you won't admit

But what you're the reason I can't fall
Far enough to find
The lies that I depend on exist
Only in my mind

I know like you
Though we still deny it
It shows in you
You know it's true
And though I tried to fight it
I can't see through
All I won't accept
