

Side Effect

Imperative Reaction

It's just a side effect, nothing is wrong
Relax, it's only for now
Just a temporary bump in the road
A lapse, it's under control

Stop alarming yourselves
There's no need for panic
Please remain calm
Your compliance isn't optional
Now, calmly

Line up
Stay down

The game is rigged
So the same side wins
No matter how many times we try

It's just a side effect, nothing is wrong
Relax and swallow your dose
Just a necessary step on the road
To track and stay in control

Stop alarming yourselves
There's no need for panic
Please remain calm
Your compliance isn't optional
Now, calmly

Line up
Stay down

The game is rigged
So the same side wins
No matter how many times we try
